

Compact Storage Systems turns storage problems into storage solutions, utilizing Wasted Aisle Space into Productive Storage Space!

Do you want to double your storage capacity or free up valuable floor space?

What are your benefits?

- Up to double the storage in the same space.
- Avoid the initial lease or construction costs and ongoing operational costs (utilities, taxes, maintenance) required to add traditional storage space.

How's it work?

- Utilizes your existing rack or shelving system.
- Racks are installed on a low profile surface mounted track system.
- Racks can be compressed and expanded as needed.
- Additional storage racks replace the eliminated aisle space.
- System can be powered or manual.
- Powered systems can be activated from the lift truck.
