

# COMPACT STORAGE SYSTEMS

*Increasing Productivity &  
Optimizing Space*

## **An American Icon places it's most valuable assets on Compact mobile carriages.**

Harley-Davidson opened its new state of the art museum in Milwaukee recently. In a temperature and humidity-controlled area the Harley-Davidson Archives, visitors will have the opportunity to see the team at work restoring items to Museum condition through a window into their workspace.

Located in the same area is the Compact Series 16 with a one production model since 1915 stored on our system.
