

Mitsubishi looks to Compact in new state of the art facility in Florida.

Mitsubishi Power Systems Inc. located in Florida is the Hemisphere hub for Mitsubishi heavy Industries Ltd.

A world leader with impressive credentials:

- World leader in power systems, aerospace, industrial equipment and steel fabrication.
- A fortune Global 150 company.
- 21 billion in annual sales.
- State of the art manufacturing, engineering, and service worldwide.
- Integrated, ultramodern R&D facilities.

Compact Storage Systems offered Mitsubishi high capacity storage with full accessibility to every pallet position. With minimal square footage allocated for storage in the new state of art building. Compact designed a unique module that is 200' long & 50' wide.

The access aisle was designed in the center offering entrance from both end and to both side of the mobile system.
