## PORTABLE WORK LIGHT

### EASY TO MOUNT, POWER AND SEE

**Get a bright, portable work light that's easy to move around to different work locations with the Rechargeable LED Work light from DuraSource.**

The high powered, portable LED work light is battery operated so you can illuminate a work site without worrying about finding extension cords or available power outlets. Plus, the battery is fully rechargeable with an included USB charging cord.

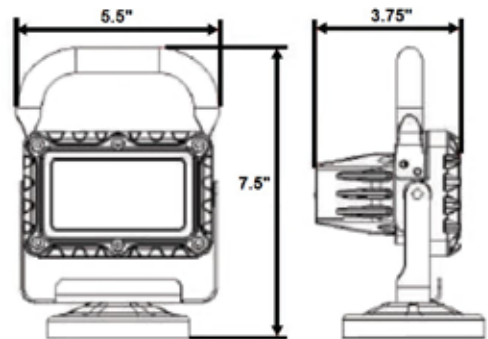

The Portable LED Work Light is lightweight and easy to move. With a magnetic base, the light can be easily mounted for the most optimal illumination while you work. A padded hand grip on top allows for ease to carry the light to different locations. Choose the illumination level with the press of a button for full light, 80% light or blinking light.

**Illuminate work areas easily with the Portable Work Light from DuraSource.**

#### Dimensions and Specifications

<b>Part Number</b>	<b>939-13157</b>
